Cedar Rapids 319.363.0233 Coralville 319.354.1003 Eldridge 563.285.2565 Waukee 515.978.6852

BENEFITS

- Easy, do-it-yourself installation
- Bullet Edgers help make short work of any landscape project
- Simply dig a shallow trench and lay Bullet Edgers in place
- Bullet Edgers can be installed to create a 51" minimum diameter

SPECIFICATIONS

- 4" h x 12" w x 4" d (nominal size)
- Weight: 13 lbs.
- 160 Bullet Edgers/pallet

INSTRUCTIONS

- Lay Bullet Edgers in your desired pattern. Before digging your base trench, determine how far above grade, if any, you want your units.
- Excavate your trench to the desired depth. Remove any rocks, roots, or other obstructions, which may cause an unlevel base.
- A small amount of sand or paver base may be added to your trench to aid in leveling the Bullet Edger units.
- Place your Bullet Edger units end to end in the prepared trench. Use a rubber mallet to tap the Bullet Edgers firmly into place. Fill and compact along units.
- Rake, compact, and smooth the surrounding dirt to finish your landscaping project.

COLORS

Chocolate

Granite

Grey

Harvest

Red

Kingston

Taupe

Charcoal

Due to inherent characteristics of concrete, color may vary slightly.
No guarantee of color shade is made or implied.

Perfect for tree rings, flower beds, gardens, and walkways.
Design options include straight, curves, and serpentine layouts.
