COMPAC TRI-PLANE

Weight: 80# ea
Units = sq ft

STANDARD TRI-PLANE

Weight: 110# ea
Units = sq ft

4" UNIVERSAL CAP

Weight: 48# ea
Cap = ln ft

Keystone Standard & Compac units are made of high-strength, low absorption concrete for long lasting structures. All structural units are interconnected using high strength fiberglass pins for strong shear connection. The connecting pins allow for ease of unit alignment and a secure mechanical connection with soil reinforcement materials. Keystone's patented pin system is the critical difference providing the safety and security of a structural retaining wall solution.

From backyard landscaping to large, load-bearing reinforced structures, Keystone Standard and Compac products are ideally suited for any application.

COLORS

Graystone

Taupe

Due to inherent characteristics of concrete, color may vary slightly. No guarantee of color shade is made or implied.
