Steps (wet cast) ......................................... 36, 41
Sands, Sealers Cleaners (Alliance) ............... 61

Planning Your Truckload

The following items can stack on top of other pallets but CANNOT be stacked upon due to pallet size and/or position on pallet:

- Antique Travertine Tiles and Bullnose
- Slate Landscape Tiles and Bullnose
- Fire Ring Cap
- Cottage Stone Retaining Wall
- Stepping Stones

LOADING NOTES:

- Grand Fire Ring Kits can be stacked up to three high
- For LTL purposes, each “spot” cannot weigh over 3,000 lbs. stacked
- Weight per pallet includes 50 lbs. for pallets

FREIGHT RATES:

Whether shipping LTL or full loads, dispatchers will find the most competitive freight rate available. Do you need a few pallets to complete a job but can’t wait for a full truckload order? Dispatchers will work to get what you need shipped quickly via LTL carrier. LTL shipments less than 15,000 lbs. and 10 pallets are shipped at current rates throughout the Midwest at 1-3 day delivery.

Barn Plank Landscape Tiles
Silver Creek Stoneworks

Features
- Deep splits and detailed grain top and sides, three faces each
- Will never rot or warp
- For paths, patios, pools, caps and overlays
- Matching step block, garden wall and fire pit kit
- Strong and durable 10,000 psi concrete

Colors
- Mahogany (color protected)
- Weathered Gray (color protected)

Notes
- Partial pallet quantities available
- To calculate pieces divide total sq. ft. by 5.2
- Exposed to the sun and Mother Nature, Barn Plank will age over time much like real wood.
- Pallets CANNOT be double stacked

Build fast and efficiently by using open graded base material and large format pavers.

Open graded paver base construction is wet weather friendly, costs less than conventional base and can save as much as 35 labor hours per week. In six months, you could gain as much as 840 labor hours.

Choose large format pavers and install more jobs. See the time study comparison at: www.rochestercp.com/efficiency

Design Notes:
1. Cross section as shown is suitable for sidewalks, residential driveways, and patios.
2. Depth of aggregate base subject to site specific conditions such as soil conditions, groundwater levels, climate conditions, etc. Contact your local sales representative.
3. Depending on the permeability of subgrade soils, drain pipes should be placed within the aggregate base. Drainage needs should verified with the geotechnical engineer.
4. Drain pipes must be able to flow into a catch basin or other approved outfall.
5. Interlock concrete pavers meets ASTM C1444 requirements.
Broadmour Pavers 6cm

Interlock Concrete Products

Features

*Example: To build a 21.2’ dia. circle, you’ll need (1) starter kit pallet + (3) 6 x 8 pallets + (2) 6 x 8 bands

Dimensions shown are nominal. Pallet square footage is accurate, layers and bands square footages have been rounded to nearest whole number.

IMPORTANT PAVER INSTALLATION NOTES:

Pavers with embossed surfaces are more susceptible to scuff marks from plate compactors. Always use a roller compactor or a protective mat between the plate and paver surface when compacting.
**Cobble Stone Paver 8cm**

*Interlock Concrete Products*

**Features**
- Four-piece, one-pallet system
- Designed for driveways, pathways and accenting applications
- Subtle texture top with soft edge detail
- Lays in a running bond
- Large auto-spacer; high flow rate eco/permeable
- Available by pallet or layer

**Colors**
- Beechwood
- Moonlight Gray
- Onyx w/KolorLast

### Connection Pins (1-2 pins required per unit)

**Type**
- Shouldered Pin
  - Size: .5 x 3.75” L
  - Pins/Box: 100
  - Pins/Pallet: 24,200
  - Use with Stonegate and Country Manor wall block
- Non-shouldered Pin
  - Size: .5 x 5.25” L
  - Pins/Box: 100
  - Pins/Pallet: 24,000
  - Use with Standard and Compac wall block

### Cottage Stone Wall

Rockwood Retaining Walls

**Features**
- Beveled face, create straight or curved garden walls, tree rings and planters
- Curved bottom aids fast install
- 0.5” setback
- To estimate number of units, divide total sq. ft. by 0.33
- Cannot be double stacked
- Available by pallet

Recon Wall

Recon Wall Systems

Features
- Strong, wet cast blocks 1,457 to 4,088 lbs.
- 24" to 84" D x 48" W x 16" H
- Regular corner and cap blocks
- Half block (24" or 39" deep)
- Full fence or full high end/cap blocks
- Available in two unique faces
- Gray color (stain applied after construction)
- Passed current WI DOT requirements

*Barn Plank tiles are manufactured with a surface applied protectant to help resist the harmful effects of time, Mother Nature, acid rain and stains.

Need a special color? Paver and block custom color production runs are available. Set-up fees apply, minimum quantities required and customer must take 100% of product run. Inquire with your regional RCP Sales Representative for details.

Product availability subject to change. Refer to actual product samples when making color selection.
Frequently asked questions:

Q: How long should I wait before sealing KolorLast pavers?
A: KolorLast treated pavers can be sealed immediately after installation.

Q: Do I need to use an efflorescence cleaner prior to sealing KolorLast pavers?
A: Should efflorescence from the joint side of KolorLast pavers appear on the paver surface you will need to use efflo-clean prior to sealing.

Q: Should I use water-based or a solvent-based sealers?
A: KolorLast is compatible with most post-applied sealers, including polyurethane, acrylic and water based products. Silane/siloxane based products are not recommended (they do not penetrate).

Always follow manufacturer’s instructions when using cleaning and sealing products and test in a small/inconspicuous area prior to application.
NATURE CAN BE ONE TOUGH MOTHER TO YOUR NEW PAVERS.

PROTECT THEM!
KolorLast is serious protection
Concrete treated with KolorLast is highly resistant to the harmful effects of salt, chemical and acid rain exposure. And, KolorLast pavers are much easier to clean – easily remove oil, food spills, animal/pet and rust marks that would likely foul the looks ordinary pavers.

What is KolorLast?
The KolorLast manufacturing process is a simple chemical reaction between two compounds. First, a special mixture of cement, aggregates, water and a proprietary chemical additive are mixed into dry-mix concrete that is pressed into molds with extreme heat and pressure. Second, as pavers are demolded, a proprietary water-based solution is sprayed on the surface where a chemical/molecular reaction creates the KolorLast protective layer. This new protective compound penetrates into the surface of the paver – three to five millimeters deep. It can only be removed with heavy abrasion/wear.

KolorLast Protected pavers are: If it’s not KolorLast – it’s just concrete.
• Fade Resistant
• Stain Resistant
• Acid Rain Resistant
• Salt Resistant
• Spalling Resistant
• Inhibits Efflo and Poly Haze
Colors may vary widely between production runs. Pull product from multiple pallets to blend colors and enhance the aesthetic. Color swatches may or may not be shown with wet-look sealer. Refer to actual product samples when making color selection.

Wet Cast Steps

Weathered Gray Barn Plank

Mahogany Barn Plank

Ivory Travertine, Natural (not shown)

Buff Chiseled 1 and 3 Sided

Indiana Limestone Chiseled 1 and 3 Sided

Bluestone Chiseled 1 and 3 Sided
Grand Step

Grand Steps have a straight split riser on one side with a smooth riser and bevel top on the opposite side.
Outcropping Wall
Rosetta Hardscapes

Features
• Strong, wet cast wall blocks for serious performance and curb appeal
• 6", 12", 18" and 24" heights
• Fourteen unique shapes in 2’ to 6’ widths
• 15˚ setback (3”)
• Lifting device required, available for purchase or rent (53 lbs.)
• Available by pallet

Colors
• Copper Canyon
• Fond du Lac
• Pacific Gray

Outcropping Patterns
Each pattern is 90 sq. ft. = (2) A pallets + (2) B pallets + (1) C pallet

Necessories Outdoor Living Kits

Necessories is a collection of affordable, ready-to-assemble outdoor fireplaces, island bars and grills, kitchens, tables, waterfalls, fire rings, seat walls and pillars kits.

Affordable luxury
Necessories kits are both beautiful and functional, turning backyards into attractive and enjoyable outdoor living spaces. Also, Necessories come ready-to-assemble with everything needed to build, making them easier to install and more affordable than typical masonry structures.

Easy to build
Each Necessories Outdoor Living Kit comes complete with everything you need to build, including precut block sized to fit, reinforcements, adhesive, and easy-to-read, step-by-step instructions. Most kits can be built by two people in an afternoon, or less.

Expand anytime
You can build your project all at once or add new features over time. Because of Necessories’ modularity, expanding your outdoor living space is easy to do whenever you are ready.

Earthy colors
Necessories kits feature Rockwood Retaining Walls’ multi-piece, tumbled Lakeland and Riverland wall systems in:
• Beechwood
• Bluestone
• Desert
• Santa Fe

Necessories caps/tops are wet cast reproductions of handcrafted limestone originals. All tops, hearths and mantels come in Indiana Limestone (gray).

Standard Features
• NO CUTTING
• Easy-to-read, step-by-step instructions
• Premium stainless steel grills and components
• Mantels, tops and caps are cast from Indiana limestone originals
• Concrete precut and reinforcements sized to fit
• VOC-compliant adhesive and gloves

Wood-fired Outdoor Pizza Oven

Rockwood Retaining Walls

Features
- 32 x 30 x 40” H
- 24 x 24” cooking surface
- Handcrafted in Sicily
- #304 stainless steel construction
- Reinforced, stainless steel chimney pipe
- Stainless steel interior wood caddy
- Stainless steel door
- °C and °F Thermometer
- Optional cover
- Color: Hammered Copper
- Weight: 155 lbs.

Outdoor Oven Woodbox/Stand Kits

Silver Creek Top 36 x 32 x 34” H 1 Pallet: (7,271 lbs.) Build Time: 1 hr.
Granite Top (Kitchen Kit) 32 x 28 x 37” H 1 Pallet: (7,271 lbs.) Build Time: 1 hr.

Oven sold separately. **Cannot be returned.**

Oven Toolkit Set

These Italian made cooking tools for wood-fired ovens will be appreciated for their ease of use and lasting quality. Each handle features a loop for hanging.

- Large rounded peel has a 11.5 x 12” head and a 45” reach
- 7” dia. peel has stainless handle, stay-cool plastic grip with unique sliding handle feature
- 6.5 x 2” W oven brush has brass bristles, aluminum handle with a 43” reach
- Sold as a three piece set

**Cannot be returned.**

Waterfall Kits

Rockwood Retaining Walls

Grand Waterfall Kit
- 1,350 gph mag drive pump
- 48” half-round basin
- 23” stainless steel spillway
- Optional LED light kit; blue or white

Compact Waterfall Kit
- 850 gph mag drive pump
- 26” square basin
- 11” stainless steel spillway
- Optional LED light kit; blue or white

Waterfall kits include all plumbing/connections.
**Colors:** Beechwood, Bluestone, Desert, Santa Fe

Calculating Paver Materials

Use the following methods to estimate the amount of materials you will need for your project.

EXCAVATION DEPTH GUIDE

Gravel Base: Use minimum depths in a well-drained area or undisturbed soil. Use maximum depths in poorly drained area or disturbed soil. ½” less is required to compensate compacting of pavers. If soil is saturated more than 50% of the time, filter fabric and extra base should be used.

<table>
<thead>
<tr>
<th></th>
<th>Pedestrian Traffic</th>
<th>Light Vehicular Traffic</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pavers</td>
<td>2-3/8”</td>
<td>2-3/8”</td>
</tr>
<tr>
<td>Sand</td>
<td>1”</td>
<td>1”</td>
</tr>
<tr>
<td>Gravel Base (compacted)</td>
<td>4” – 6”</td>
<td>8” – 12”</td>
</tr>
<tr>
<td>Total Excavation Depth</td>
<td>7” – 9”</td>
<td>11” – 15”</td>
</tr>
</tbody>
</table>

BASE MATERIAL CALCULATOR

Granular Base:
Square Footage of Pavers x (depth of base ÷ 12) ÷ 27 = Cubic Yards of Base Needed

Bedding Sand (1” depth):
Square Footage of Pavers x 0.0031 = Cubic Yards of Sand Needed

EDGE RESTRAINT CALCULATOR

Length of restrained pavers (ft.) ÷ 8 = Pieces of SnapEdge
Note: Use one spike for every foot of retained pavers.

CALCULATE BORDERS AND ACCENTS

Length of Border (ft.) ÷ Length of Product (ft.) = Number of units

Example: Cobble Stone Border

\[
\frac{30}{0.83} = 36
\]

Length of Border (ft.)   Length of Product (ft.)   Number of units

Discontinued products available until gone, call for availability.
Calculating Retaining Wall Material Requirements

Use the following methods to estimate the amount of base material, drainage rock, and adhesive you will need for your project.

BASE MATERIAL CALCULATOR

A typical trench is 2’ wide and 14” deep to bury a full course of 8” block. Your base material must be a minimum of 6” in height.

\[
\text{Wall Length in ft.} \times \text{Base Height in ft.} \times \text{Base Width in ft.} \div 27 = \text{Cubic Yards*}
\]

*Add 10% for inconsistencies in the trench and compaction.

DRAINAGE ROCK CALCULATOR

You need enough drainage rock to fill 1’ behind the tail of the block and to fill any cores.

\[
\text{Wall sq. ft.} \times 1.33 \times 27 = \text{Cubic Yards}
\]

ADHESIVE CALCULATOR

The amount of adhesive required depends on type of block and construction. Use the guide below to estimate the amount of adhesive required.

Approximate length of bead by width:

<table>
<thead>
<tr>
<th>Tube Size</th>
<th>Bead Widths/Tube</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1/8”</td>
</tr>
<tr>
<td>10.5 oz.</td>
<td>129 ft.</td>
</tr>
<tr>
<td>29 oz.</td>
<td>355 ft.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Packaging</th>
<th>Tubes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tubes/Case</td>
<td>12</td>
</tr>
<tr>
<td>Cases/Pallet</td>
<td>108</td>
</tr>
</tbody>
</table>

Class 6 & 8 Walls - 20" Pillar

Step 1 - Create a (Corner) Pillar Block
If you need to create corners on the job site, see instructions on previous page on how to create Corner Blocks.

Step 2 - Excavating and Site Preparation
Follow the steps for a leveling pad installation, as described in basic wall installation. Lay the first four pillar blocks with the split faces exposed to create the foundation for the 20" Pillar.

Step 3 - Successive Course Installation
Stagger the pillar blocks so a running bond is maintained. Adhere all blocks with Super-Stik™.

Class 6 & 8 Walls - Half-Block Pillar

Step 1 - Create a Half Block
If you need to create Half Blocks on the job site, be sure you have Base Block.

Step 2 - Excavating and Site preparation
Follow the steps for a leveling pad installation, as described in basic wall installation. Lay the first four Half Blocks with the split faces exposed to create the foundation for the Half Block Pillar.

Step 3 - Successive Course Installation
Stagger the Half Blocks so a running bond is maintained. Adhere all blocks with Super-Stik™.

Class 6 & 8 Walls - 90° Corners

Base Course Preparation with Corner Block
Begin an outside corner from the corner of the wall and install the blocks from the corner out when possible.

Successful Course Installation
Stagger the Corner Block as each successive course is installed so it is on the opposite side of the wall corner. Length adjustments to the Corner Block may be necessary to maintain a running bond.

Base Course Preparation
Begin an inside corner from the corner of the wall and install the blocks from the corner out when possible. Only half of a whole block installed on the corner will be exposed. This is true of each successive block that is staggered in the corner.
Successive Course Installation
Gaps will develop in successive courses, which will require a “wedge” block to fill the gap. Measure the gap and cut a block to fill the gap. Adhere cut block with Super-Stik™. Depending on the height of the wall, the “wedge” block will eventually become the same size as a whole block, then the process repeats itself.

Step 4 - Capping a 20” Pillar
A 20” Pillar may be capped with Universal Caps, stone, or other prefabricated products. Adhere caps with Super-Stik™.

Creating a Pillar Cap Block
Pillars may be capped with 20” Universal Caps, stone or other prefabricated products. Adhere caps with Super-Stik™.

Adjusting Setback for Near Vertical Walls
Rockwood blocks offer the unique ability to modify the facing batter of a wall. This is especially useful in stair step and egress window applications. For 6” tall Blocks, adjust setback by 3/4”. For 8” tall Blocks, adjust setback by 1”. The setback is determined by how much material is removed.

To adjust the setback, modify the two blocks below the successive course by splitting at the grooves on the top of each block. NEVER ALTER THE ANCHOR BAR! Doing so will adversely affect the performance of the wall.

Note: For complete retaining wall installation instructions, request a copy of the manual for the block system you are building with.

Available online at: www.rochestercp.com/install
Classic 6 & 8 Walls - Half, Base and Corner Blocks

To create a Base Block, position the block so the Anchor Bar is facing up. Remove the Anchor Bar with a hammer and chisel as shown – wear protective equipment when modifying the block.

To create a Half Block, make a score line in the middle of the block, from front to back and on both sides. Split as shown. Wear protective equipment when splitting.

To create a Corner Block, make score lines on both splitting grooves and behind the head of the block. Split the block on both top and bottom sides, as shown. A hammer and chisel, or a hand splitter may be used to create the block. Wear protective equipment when splitting.

Classic 6 & 8 Walls - Basic Installation

Base Course Installation
The base course will consist of base block. Use a string line behind the tail of the block for alignment on straight wall applications. All blocks should rest firmly on the pad and be centered to allow 6” of base material in front and 6” behind the Base Block. Level each block, side-to-side, front-to-back and across three full blocks with a hand level. A rubber mallet may be used to level and align the blocks.

Core and Drainage Fill
Place 3/4” to 1” clean aggregate (crushed rock) within the cores and a minimum of 12” behind the blocks. This creates a drainage zone and Stone Columns that helps to unify and maximize the performance of the wall.

“Stone Columns” are an integral part of a Rockwood Retaining wall; adding support and stability to the wall.

Classic 6 & 8 Walls - Stepping a Wall

A Half Block or Corner Block may be used to end a course in a Rockwood application.

Double stack 4” tall Universal Caps as an end cap to finish courses of 8” tall blocks.
Note: Vintage 6 Garden Walls may be built to a maximum total height of 36” (under ideal conditions) without geogrid. Use a minimum 6” embedment and 12” of clean crushed rock behind wall.

**Step 1 – Base Course Preparation**
Beginning at the wall’s lowest elevation, excavate a trench down the length of the wall with a minimum width of 24” to accommodate at least 6” of base material and 6” of block embedment. As a rule of thumb, for every 8” to 10” of wall height, 1” of block should be buried with a minimum of 6” base course embedment. Step the trench up or down with respect to adjacent grade.

**Step 2 – Leveling Pad Installation**

Note: Unlike other wall systems, Vintage builds vertically with no setback. For this reason, take extra caution to make sure the first course is level from front to back to prevent tipping or overturning.

**Step 3 – Base Course Installation**
The base course will consist of Vintage all three blocks. Use a string line for alignment on straight wall applications. All blocks should rest firmly on the pad and be centered on the base to allow approximately 6” of base area in front and behind the block. Level each block side-to-side, front-to-back, and across three blocks with a hand level. A rubber mallet may be used to level and align the Vintage blocks.

Note: For best alignment results on straight walls use the string line within the interlocking channel.

**Step 4 – Drainage Fill**
Place 3/4” to 1” clean aggregate (crushed rock) a minimum of 12” behind the blocks. This creates a drainage zone that helps to unify and maximize the performance of the wall.

**Step 5 – Continue to build courses**

Capping a Wall

Ending a Wall – Step the end of your exposed wall with Vintage 6 corner block.

When building under 3’ in height, place and compact a minimum of 6” base material to 95% Standard Proctor. Verify the base is level with a transit or hand level. Be aware the base material (commonly referred to as road base or base aggregate) will vary from region to region.

When building over 3’ in height, it is highly recommended to build on a 2’ inclined base (a 7/8” - 1” setback). Simply place 1” of material on top of your compacted leveling pad. Screed the excess material away using a level tied to an angled board, compact to 95% std. proctor.

Walls 36” and above need to be built with geosynthetic reinforcement and may need to be designed by a licensed engineer.
Vintage 6 Wall - Basic Installation

PLEASE NOTE: Garden walls designs above 36” and retaining walls of any height that support a load should be evaluated and approved by a qualified professional engineer.

For complete retaining wall installation instructions, request a copy of the manual for the block system you are building with. Available online at: www.rochestercp.com/install

General Terms and Conditions of Sale

These General Terms and Conditions of Sale (these “Terms and Conditions”) will apply to the sale of goods and any (if any) applicable services (collectively, with any such services, being the “Goods”) pursuant to any contract (a “Contract”) to which these Terms and Conditions are made applicable. As used in these Terms and Conditions, “we,” “us” or “our” and similar terms refer to Rochester Concrete Products, LLC, and “Customer” means the party purchasing the Goods from us.

Alteration. No provision in these Terms and Conditions may be varied or waived except by a writing signed by us specifically referring to these Terms and Conditions and describing the alteration or waiver. Our acceptance or acknowledgment of Customer’s purchase order or any other document pertaining to the Goods, even if in writing and signed by us, will not be deemed an acceptance of any provision of Customer’s purchase order or any other document that conflicts with or adds to these Terms and Conditions, absent a separate agreement. We expressly acknowledge and agreeing to such provisions. Without limiting the generality of the foregoing, we object to any different or additional terms or conditions contained in any request for quotation, purchase order or other document of Customer, and no such terms will be effective or binding upon us unless we agree to such terms in a writing signed by one of our officers. In no event will our delivery of any Goods be an assent to any such terms proposed by Customer. Unless otherwise expressly stated in any applicable quotation or comparable document signed by us, we may revoke any quotation or other offer at any time prior to acceptance, and no such quotation or other offer will be valid for more than 30 days. After acceptance of an order, Customer may not cancel or terminate any Contract without our consent, except as provided herein or by applicable law.

Payment; Delivery. All prices are quoted and all payments will be made in U.S. Dollars. Customer will pay our invoices IN FULL on the terms stated in the applicable invoice, without set-off or counterclaim. Past due invoices will bear a late fee of 1.0% per month or, if less, the highest rate permitted by applicable law. Any stated shipment or delivery date is the date on which we in good faith believe the Goods will be shipped, but failure to ship on that date will not be a breach of the Contract, whether such Goods are in fact shipped before or after that date. All Goods are shipped Ex Works (Incoterms 2010) at our facilities, and costs of transportation and risk of loss during shipment will be borne by Customer. We may deliver any Goods hereunder in installments, in which case each installment will be treated as a separate sale hereunder and may be separately invoiced. Customer will pay all duties and sales, value-added, excise, use or other taxes arising in connection with any transaction (other than taxes based solely on our taxable income). Unless otherwise specifically stated, Goods will be shipped in packaging we reasonably select.

Duty to Inspect. Customer will inspect all Goods promptly upon delivery and notify us promptly upon becoming aware of any non-conformity to the Contract. Except as stated regarding any applicable written warranty, we will have no liability regarding any such non-conformity unless such notice is given to us no later than (i) for a defect that could be determined by inspection upon delivery, the 30th day after delivery of such Goods, or (ii) for any other defect, the 30th day after such defect shoubeably have been discovered by Customer, but in each event not later than the 60th day after delivery of the Goods to Customer. Shipments less than 5% over or under the quantity specified in the Contract will be deemed in conformance with the Contract. Goods will not be deemed non-conforming solely by reason of minor modifications or changes in materials from those specified in the Contract, so long as such modifications and changes do not materially and adversely affect the performance of the Goods. If the Goods do not conform to the Contract, our obligation will be limited to, at our election, supplying the missing Goods, replacing the relevant Goods, or refunding the purchase price paid for such Goods (but in all cases as otherwise may be limited in any other Paragraph of these Terms and Conditions or the Contract).

Security Interest. We reserve, and Customer hereby grants to us, a security interest in all Goods. The security interest secures all present and future obligations of Customer to us, including but not limited to the obligation to pay the price of the Goods. We may make any such filings as reasonably necessary to perfect such security interest (and Customer will cooperate promptly in all reasonable respects in connection therewith).

Our Warranty. Customer will ensure that any written warranty that we provide with the Goods is properly given to the end user of the Goods (whether by providing such warranty directly or causing Customer’s contractors to do so).

Limited Warranty. We make no warranty of any nature whatsoever with respect to the Goods, other than any written, limited warranty that we may provide at the time we provide the Goods. If Customer discovers any breach of or similar creation of obligation under the warranty described above, Customer must notify us in writing thereof within 30 days after such discovery. Within a reasonable time following such notification, we will determine whether such warranty in fact applies and will, at our option, either (i) repair or replace the applicable Goods, (ii) remit to Customer the purchase price paid for such Goods, or (iii) take any other action consistent with the terms of such warranty. THE FOREGOING WARRANTIES ARE EXCLUSIVE. WE MAKE NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT, OR ANY OTHER PURPOSE. THE REMEDIES SET FORTH IN THIS PARAGRAPH ARE THE EXCLUSIVE REMEDY FOR ANY BREACH OF OR SIMILAR CREATION OF OBLIGATION UNDER WARRANTY. The remedies set forth in this Paragraph will not be deemed to have failed of their essential purpose so long as we are willing and able to provide one of the applicable remedies set forth herein.

Limitations. WITHOUT LIMITING ANY OTHER LIMITATION OF LIABILITY, IN NO EVENT WILL WE BE LIABLE FOR ANY INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES OF ANY KIND, WHETHER FOR BREACH OF ANY WARRANTY, BREACH OR REPUDIATION OF ANY OTHER TERM OR CONDITION, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE. IN NO EVENT WILL OUR AGGREGATE LIABILITY TO, THROUGH OR ON BEHALF OF CUSTOMER IN ANY WAY RELATED TO THIS OR ANY RELATED TRANSACTION EXCEED THE TOTAL AMOUNT PAID TO US UNDER THE APPLICABLE CONTRACT.

Force Majeure. We will not be liable for any failure to manufacture, deliver or provide, or for any delay in the manufacture, delivery or provision of, any Goods if such failure or delay is caused by act of God, fire, strike, blackou, labor difficulty, riot, inability to obtain raw materials, supplies or other goods or services, equipment, labor or transportation, governmental restrictions, public health nuisances, or similar cause over which we are unable to exercise adequate control. We may cancel any Contract by notice to Customer if we determine in good faith that any such cause makes performance of the Contract impossible or commercially impracticable for us.

Confidential Information. “Confidential Information” means information that you obtain from or regarding us regarding our products, business practices, customers, assets or other matters, excluding any information that is publicly available when provided or thereafter becomes publicly available, other than by reason of your breach hereof. You will (i) not use any Confidential Information other than for the performance of any Contract, (ii) not disclose Confidential Information, except to your employees and contractors requiring such information for the performance of any Contract, (iii) use your best efforts to prevent your employees, your contractors, and your contractors’ employees from using or disclosing Confidential Information to any party, except as permitted by this Paragraph, and (iv) return all Confidential Information to us upon our request following completion or termination of any Contract. This Paragraph (and all related rights and remedies) will survive performance or termination of any Contract.

Miscellaneous. All rights and obligations under these Terms and Conditions and any Contract will be governed by the laws of the State of Minnesota (without regard to principles of conflicts of law). The headings herein are for convenience of reference only and will not affect any meaning or interpretation. The United Nations Convention on Contracts for the International Sale of Goods will not apply. CUSTOMER HEREBY IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY COURT SITTING IN HENNEPIN COUNTY, MINNESOTA, IN ANY PROCEEDING ARISING OUT OF OR RELATING TO THE INTER-ACTIONS BETWEEN US AND CUSTOMER AND TO THE RESPECTIVE COURT TO WHICH AN APPEAL OF THE DECISIONS OF ANY SUCH COURT MAY BE TAKEN, AND CUSTOMER AGREES NOT TO COMMENCE, OR COOPERATE IN OR ENCOURAGE THE COMMENCEMENT OF ANY SUCH PROCEEDING, EXCEPT IN SUCH A COURT. CUSTOMER HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT IT MAY DO SO, THE DEFENSE OF AN INCONVENIENT FORUM TO THE MAINTENANCE THEREIN OF SUCH A PROCEEDING. CUSTOMER HEREBY AGREES THAT A FINAL JUDGMENT IN ANY SUCH PROCEEDING WILL BE CONCLUSIVE AND MAY BE ENFORCED IN ANY JURISDICTION BY SUIT ON THE JUDGMENT OR BY ANY OTHER MANNER PROVIDED BY APPLICABLE LAW. CUSTOMER HEREBY EXPRESSLY WAIVES ANY RIGHT IT MAY HAVE TO A JURY TRIAL IN ANY SUCH PROCEEDING. NO CLAIM OR ACTION, REGARDLESS OF FORM, ARISING OUT OF THE INTERACTIONS BETWEEN US AND CUSTOMER MAY BE BROUGHT BY OR ON BEHALF OF CUSTOMER MORE THAN ONE YEAR AFTER THE CAUSE OF ACTION HAS ACCRUED (SUBJECT TO ANY FURTHER APPLICABLE LIMITATION). IF ANY SUCH LEGAL ACTION IS BROUGHT, THE PREVAILING PARTY WILL BE AWARDED REASONABLE ATTORNEYS’ FEES IN ADDITION TO ANY OTHER RELIEF THAT MAY BE GRANTED.

Version 3/20/13
RCP, LLC Limited Lifetime Warranty

Congratulations on choosing Rochester Concrete Products, LLC ("RCP") products to protect and beautify your home. These superior-quality hardscape products have been designed to give you years of enjoyment and comfort.

IMPORTANT NOTICE: Read this entire RCP Limited Lifetime Warranty and Limitation of Liability ("Limited Warranty"). It is important that the warranted products be properly installed and maintained in order for them to function successfully throughout the duration of this Limited Warranty. Depending on the product’s application, installation guides can be found at www.rochestercp.com. It is also important for your installer to carefully review the technical information, including specifications, for the chosen use of your RCP products as it may be the responsibility of the installer or design engineer to provide independent soil testing, quality assurance inspection, testing, and design services necessary to insure a safe and functional application.

This Limited Warranty applies only to RCP products that are purchased and used as part of Rockwood Retaining Wall Systems installed in owner-occupied single-family homes within the United States, subject to the stated conditions and limitations. This Limited Warranty does not extend to any current or future products distributed, but not manufactured, by RCP. This Limited Warranty applies only to RCP’s products and not to the system into which they may be placed. Nor does this Limited Warranty cover RCP products used in governmental, commercial, or multi-residential applications.

LIMITED LIFETIME WARRANTY FOR RCP PRODUCTS INSTALLED IN OWNER-OCCUPIED SINGLE-FAMILY HOMES AS A PART OF A ROCKWOOD WALL OR HARDSCAPE SYSTEM. RCP warrants that its products will be free from defects for as long as you own your home. If RCP is given prompt notice of a defect, it shall, at its sole option: (1) repair or replace the defective product(s), or (2) refund the original purchase price of the defective product(s). This Limited Warranty is provided only to the owner(s) of the home at the time of purchase and may not be assigned or transferred. In the event the owner(s) sells the home, this warranty automatically converts to a two-year limited warranty affording the same scope of protection and governed by the same conditions, disclaimers and limitations of this Limited Warranty. If RCP elects to repair the defect, it shall be responsible for the labor to accomplish the repair. If RCP elects to replace the defective product(s), its obligation is to deliver suitable replacement product to owner’s property.

LIMITATION OF LIABILITY
This Limited Warranty sets forth the maximum liability for our products. IN NO EVENT (INCLUDING WHERE THIS LIMITED WARRANTY IS DEEMED NOT TO APPLY TO THE SALE OR PRODUCT IN QUESTION) SHALL RCP, GLS INDUSTRIES, INC., OR ROCKWOOD RETAINING WALLS, INC. BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES RESULTING FROM THE SALE, INSTALLATION OR USE OF ANY RCP PRODUCTS. Some states do not allow the exclusion or limitation of incidental or consequential damages for consumers, so the above limitation or exclusion may not apply to you.

LIMITATION OF WARRANTY
RCP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES FOR MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE.

DISCLAIMER – WHAT THIS LIMITED WARRANTY DOES NOT COVER
RCP is not responsible for or makes no warranty as to:
1. Product failure, loss or damage due to:
   • Normal wear and tear;
   • Damage due to improper handling and repeated or extended contact with chemicals, such as deicers;
   • Products improperly installed or maintained;
   • Acts of God;
   • Structural settlement, movement or vibration;
   • Products that have not been paid for in full.
2. Minor imperfections
   • Minor imperfections that do not affect the product’s structural integrity;
   • Variations in product texture or color;
   • Efflorescence;
   • Minor imperfections in shape, appearance, or dimensions covered by ASTM C1372.

CONDITIONS OF WARRANTY – WHAT YOU MUST DO TO RECOVER UNDER THIS LIMITED WARRANTY
Prompt Notice of Defect:
Within the warranty period, you must promptly, and in no case more than one (1) year after any defect or other basis of a claim covered by this Limited Warranty is discovered or should have been discovered, notify RCP of the defect. Any claims otherwise covered by this Limited Warranty, but for which RCP did not receive notice of the defect within one (1) year from the time the problem first became known shall be barred.

LIMITED WARRANTY CLAIM PROCEDURE
Claims under this Limited Warranty may be made in writing to RCP at 7200 Broadway Ave. N., Rochester, MN, 55906. Claims should include the following information:
1. Claimant’s name, address, and phone number and the installation address (if different);
2. A description of the product, purchase price, date and location of purchase, and copies of invoices, if available;
3. A description of the defect(s) (photos are required); and
4. A brief summary of attempts made to address the concerns.

NO STATEMENT OF USEFUL LIFE
This Limited Warranty is not a statement of the useful life of any RCP products.
welcome to the backyard...
