QUALITY, INNOVATION & SERVICE

The VERSA-LOK Midwest team is dedicated to quality, innovation and service. VERSA-LOK Midwest is a supplier of landscape/hardscape, erosion control and utility products and accessories for residential, commercial and public works construction. Our local plants in Kimball and Faribault, Minnesota, along with our partnered manufacturers in the Upper Midwest, are staffed with skilled experienced professionals who adhere to the highest quality standards. Using state-of-the-art equipment and durable aggregates, our team continually develops new products and processes for superior solutions.

VERSA-LOK

M I D W E S T

FAMILY OWNED

Recent innovations include expanded dry cast and precast capabilities, along with new products, textures and colors. Our Infusion™ technology process enhances the appearance and performance of Willow Creek Select Series™ pavers. Infusion technology also extends the life of a paver’s bright, vibrant “new paver” look, improves stain resistance and reduces absorption, making the paver more durable. The best combination of aggregates, cement, color pigments, compaction and curing times results in products that are versatile, beautiful and durable in even the toughest Midwest conditions.
