

# VERSETTA STONE®

STONE SIDING

The beauty of stone, the simplicity of siding.

# WHAT IS VERSETTA STONE®?

Versetta Stone® is a stone veneer siding panel that is mortarless and cement-based. Its panelized design is installed with mechanical fasteners, allowing carpenters and contractors to recreate the beauty and craftsmanship of authentic stone masonry using nails or screws.

For over 50 years, Boral® has worked to build a reputation for quality, authenticity and design by consistently improving and perfecting the production process for manufactured stone veneer, becoming the most recognized brand in the industry. With a combination of lightweight concrete, basic aggregate, water, and mineral oxide pigments, the master craftsmen can not only mimic the look of natural stone, but also improve upon it with more consistent color, quality and weight. From this knowledge, expertise and dedication to innovation comes Versetta Stone® – a new, mortarless stone veneer with a modern installation method.

Tight-Cut, Sterling

**Wainscot Cap/Sill**  
36" x 3-1/2"  
2.6" Exposure  
3" Thickness  
Available in Taupe & Charcoal

**Trim Stone**  
36" x 9-1/2"  
8.2" Exposure  
Available in Taupe & Charcoal

**Receptacle Box**  
10" x 8"  
1-3/4" Thickness  
Available in Taupe only

**Light Box**  
6" x 8"  
1-3/4" Thickness  
Available in Taupe only

## FLAT PANEL

The main component of the Versetta Stone® system, the Flat Panel covers two square feet and weighs approximately 17 lbs. Each panel is embedded with a G-90 galvanized nail strip\* that allows for easy installation with mechanical fasteners.

\*Includes a 60-year corrosive resistant warranty.

## UNIVERSAL CORNER

The Universal Corner panels are the same size and shape as Flat panels but have finished ends. Universal Corner panels fit neatly with Flat panels and are designed for use on end wall terminations and for inside and outside corners. The panels must be cut to create right and left panels.

# LEDGESTONE

Similar to dry stack or sandstone, the rugged texture and purposeful irregularity offers a well-worn look that suggests years in the elements.

## TIGHT-CUT

With the traditional look of Random Ashlar or quarried limestone, this profile fits tightly together to emulate rural 19th century American architecture.

Graphite

## CARVED BLOCK

Combines larger stones, in various sizes, with a chiseled texture to mimic split face stone.

Panels are 1-1/2" thick.
